

## **Cooper University Health Care High-Performing Post-Acute Care Network & Partners**

Cooper recognizes and respects patient choice. You are welcome to choose any organization you wish to continue your care after you or a loved one leaves the hospital. Patients and their families often look to us to provide options that we believe are in their best interest. Through the formation of a high-performing post-acute care network and collaborating partner network, we can help ensure the following goals are met:

- Better Quality Care
- Reduced Cost
- Higher Patient Satisfaction

These participating organizations have successfully completed comprehensive site evaluations, clinical reviews, and rigorous quality assessments, demonstrating their adherence to high standards of excellence. They also report to Cooper's Accountable Care Organization (ACO), called AllCare Health Alliance, to ensure that standards are maintained. Additional details about the sites in our network are included on the back of this document.
